

MCGRAW HILL CONNECT INFORMATION

Getting Access to CONNECT

There is a link in the overview tab of Sakai that will take you to the registration page for the course Connect site. If you purchased a new edition of the textbook (either paper or electronic) then it likely came with an access code. You will need to use this access code to register for the course Connect site. Access codes purchased at the URI Bookstore are usually good for multiple semesters, so if you purchased one at the bookstore for CHM 101, it will likely work for this semester as well. If you do not have an access code, the registration page should also have options for you to purchase an access code or sign up for a limited duration free trial. The free trial will not be sufficient for the entire semester, but will get you through the first few weeks of class if you are not able to purchase an access code at this time.

At the end of this information sheet, I have included screen shots of the pages that you should see when you click on the link to the Connect registration page. Note that each section has a separate site.

TYPES OF ASSIGNMENTS:

On-line homework

- Required
- Specified due dates
 - Unlimited attempts before & after due date (Note that If you run out of chances to try a problem, you can submit the homework and reattempt the assignment.)
 - After due date, credit is lost at 2% per day.
- If at any point you feel that you are having a problem with the technology please come to see me before you become too frustrated.
- Make sure to hit the submit button when you are finished with the assignment - otherwise the homework may be considered a late submission.

Learnsmart

- Required
- Specified due dates
 - Graded based on percent completed, not whether answers are correct/incorrect
 - Email me for an extension if you need to complete an assignment after the due date
 - No limit to the number of extensions a student can receive

Additional practice problems

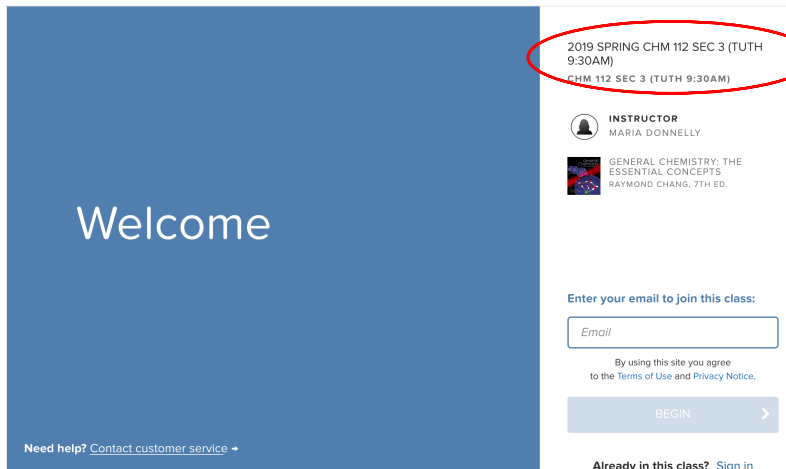

- **NOT REQUIRED**
- Have a listed due date of the end of the semester, but will not be graded. **THESE PROBLEMS DO NOT NEED TO BE COMPLETED.**
- Intended to provide additional practice to help with exams, etc.

Practicing problems is an extremely important part of learning chemistry. Remember that you will see the best outcomes if you complete all assignments in a timely manner. With unlimited attempts, as long as you put in the time and effort, there is no reason that you cannot obtain a score of 100% for your homework. This will be far

more beneficial, in terms of both learning outcomes and grades, than a homework grade of 50% or less.

Screenshots of Connect registration process:

Chang: General Chemistry: The Essential Concepts
7TH EDITION
Raymond Chang, Kenneth Goldsby

This next image may be slightly different than the current process but the options are hopefully the same.

Student Registration

General Chemistry: The Essential Concepts
ISBN: 0077623290
Edition: 7
Author: Raymond Chang, Kenneth Goldsby

Already purchased?

To access your course materials, first enter your 20 digit registration code.

Registration Code:

Example: GRFU-BYHA-6MYJ-FGNK-F9XA

[How do I register](#) | [What is a registration code](#)

What you get with Connect:

- Digital Access to the textbook
- Interactive tools that will help you focus your study time
- Exclusive discounts on a print copy of the textbook

Need to purchase?

No registration code, no problem. You can buy access to General Chemistry: The Essential Concepts right now. All you need is a credit card.

Buy Online

Need Temporary Access?

You can get two week access to your course material. After that your work will be saved and you can purchase access.
