

Chapter 13 Vocabulary

Boiling point elevation
Colligative properties
Crystallization
Freezing point depression
Henry's law
Hypertonic
Hypotonic
Ion pair
Isotonic
Ideal solution
Miscible
Molality
Molarity
Nonvolatile
Osmosis
Osmotic pressure
Percent by mass
Raoult's law
Saturated (solution)
Semipermeable membrane
Solute
Solvation
Solvent
Supersaturated (solution)
Thermal pollution
Unsaturated (solution)
Volatile
