

## **Chapter 5 Vocabulary**

Absolute zero  
Atmospheric pressure  
Avogadro's Law  
Barometer  
Diffusion  
Effusion  
Gas constant  
Ideal gas  
Ideal gas law  
Joule  
Kelvin temperature scale  
Kinetic energy  
Kinetic molecular theory of gases  
Manometer  
Mole fraction  
Newton (N)  
Partial pressure  
Pascal (Pa)  
Pressure  
Root-mean-square (rms) speed ( $v_{rms}$ )  
Standard atmospheric pressure  
Standard temperature and pressure  
van der Waals equation
